ABOUT CUBA

Cuba, situated in the Caribbean Sea, is an island nation with a rich history and vibrant culture. Following the 1959 Cuban Revolution led by Fidel Castro, the country adopted communism and aligned itself with the Soviet Union during the Cold War. This led to strained relations with the United States, which imposed a trade embargo on Cuba, impacting its economy significantly.

Despite economic challenges, Cuba boasts a well-regarded healthcare system and a strong focus on education, resulting in high literacy rates and universal education. The country's culture is a blend of Spanish, African, and indigenous influences, expressed through music, dance, and cuisine.

In recent years, Cuba has undergone some economic reforms, allowing for limited private enterprise and increased tourism. However, political freedoms remain restricted under the single-party rule of the Communist Party of Cuba.

Overall, Cuba is a complex nation with a fascinating mix of history, politics, and culture, continuing to navigate its path amid changing global dynamics and diplomatic relations.

*** This is a physical trip, and you must be able to walk 2-4 flights of stairs***

ABOUT "LA CASITA"

The suites have different styles and a central art piece which makes them different. Each one offers a different experience. The suites are modern. One suite has 2 floors with a living room and 2 balconies and the other one a big painting and direct access to a beautiful terrace. Each suite has a private bathroom with its own bathtub.

All standard rooms have a full bathroom and a queen size bed. Each one has different contemporary art pieces, cool lamps and it's very spacious.

The property has 2 inner living rooms, a full kitchen and 3 different terraces with a bar that's working 24 hours with a host. The upper terrace is perfect for the night due to a 360 view of Havana (including the capitol and the big Casablanca Crist). There's a dedicated workspace, Bay view, City Skyline View with security cameras on the property.
